## HEAVY-DUTY LABEL SLITTING PACKAGES

Two powered spindles on the **TWIN-CAT-3-CHUCK** provide more power and convenience in multi-core rewind / slitting applications.

- You place each successive Core on the opposite spindle.
- Easy Slitter set-up saves time.
- You don't need to use Separator Plates as the rewind rolls are not immediately adjacent to each other.

**TWIN-SLIT-100-DELUXE PACKAGE**  
with Optional Counter
